[Introduction to Cybersecurity](#)

Issued by: Cisco

Issued to: Divya Tej

Issued on: 6 July 2023

Description: Cisco verifies the earner of this badge successfully completed the Introduction to Cybersecurity course. The holder of this student-level credential has introductory knowledge of cybersecurity, including the global implications of cyber threats on industries, and why cybersecurity is a growing profession. They understand vulnerabilities and threat detection and defense. They also have insight into opportunities available with pursuing cybersecurity certifications.

[Networking Basics](#)

Issued by: Cisco

Issued to: Divya Tej

Issued on: 19 July 2023

Description: Cisco verifies the earner of this badge successfully completed the Networking Basics course and achieved this student level credential. Earner has knowledge of the types of networks, how they work, how devices send and receive data, the types of network cabling, how IP addresses find information on the Internet, how transport and applications operate, and has practiced building a home wireless network. Participated in up to 13 Cisco Packet Tracer activities.

[Cyber Threat Management](#)

Issued by: Cisco

Issued to: Divya Tej

Issued on: 24 July 2023

Description: Cisco verifies the earner of this badge successfully completed the Cyber Threat Management course. The holder of this student-level credential is familiar with cybersecurity policies and governance to ensure an organization complies with ethics standards and legal and regulatory frameworks. They understand how to do a network vulnerability assessment and create a risk management plan, as well as post-incident response.

Network Defense

Issued by: [Cisco](#)

Issued to: Divya Tej

Issued on: 3 August 2023

Description: Cisco verifies the earner of this badge successfully completed the Network Defense course. The holder of this student-level credential has a broad understanding of techniques to monitor and protect the network, including access control, firewalls, cloud security, and cryptography. They are also familiar with how to evaluate and respond to security alerts.

Networking Devices and Initial Configuration

Issued by: [Cisco](#)

Issued to: Divya Tej

Issued on: 7 August 2023

Description: Cisco verifies the earner of this badge successfully completed the Networking Devices and Initial Configuration course and achieved this student level credential. Earner learned characteristics and benefits of cloud and virtualization, explored how to provide Internet Protocol (IP) addresses to devices, calculate an IP addressing scheme, configured Cisco devices to create a small network and tested for connectivity issues. Participated in up to 7 labs and 12 Cisco Packet Tracer activities.

Endpoint Security

Issued by: [Cisco](#)

Issued to: Divya Tej

Issued on: 13 August 2023

Description: Cisco verifies the earner of this badge successfully completed the Endpoint Security course. The holder of this student-level credential has a broad understanding of basic concepts of network security, as well as operating systems and endpoint security.

Network Support and Security

Issued by: [Cisco](#)

Issued to: Divya Tej

Issued on: 19 August 2023

Description: Cisco verifies the earner of this badge successfully completed the Network Support and Security course and achieved this student level credential. Earner has knowledge to support endpoints, networks, and users including diagnostics and documentation as a member of a help desk team as well as an in-depth view of troubleshooting of networks and endpoints and knowledge and skills regarding supporting users and networks remotely. Participated in up to 10 labs and Cisco PT activities.

Network Technician Career Path

Issued by: Cisco

Issued to: Divya Tej

Issued on: 23 September 2023

Description: Cisco verifies the earner of this badge successfully completed the Networking Technician career path and achieved this student level credential. Earner has knowledge of networking fundamentals, how devices communicate, cabling, network addressing and services, basics of configuring Cisco devices, troubleshooting and support of endpoints, networks, and users including diagnostics and documentation as a member of a help desk team, and basic wireless. Participated in up to 50 practice activities.

Junior Cybersecurity Analyst Career Path

Issued by: Cisco

Issued to: Divya Tej

Issued on: 26 September 2023

Description: Cisco verifies the earner of this badge successfully completed the Junior Cybersecurity Analyst Career Path with Cisco Networking Academy. They understand techniques to monitor and protect the network, including firewalls, cloud security, and cryptography, they are familiar with security alerts and governance, and they have skills to perform network vulnerability assessment and create a risk management plan, including forensic investigations and incident response planning.

Operating Systems Basics

Issued by: Cisco

Issued to: Divya Tej

Issued on: 3 February 2024

Description: Cisco verifies the earner of this badge successfully completed the Operating Systems Basics course and achieved this student level credential. Earner has fundamental knowledge of operating systems by covering the basic concepts and skills needed to explain the purpose and characteristics of operating systems, implement basic operating system security, and explain how to configure mobile device network connectivity and email.

[Network Addressing and Basic Troubleshooting](#)

Issued by: [Cisco](#)

Issued to: Divya Tej

Issued on: 21 February 2024

Description: Cisco verifies the earner of this badge successfully completed the Network Addressing and Basic Troubleshooting course and achieved this student level credential. Earner has knowledge of physical, data link and network layers, how they work together to provide end-to-end connectivity, and also understands IPv6 addressing functions and how to obtain one and the neighbor discovery process. Practiced troubleshooting skills to keep a network up and running in up to 13 Cisco Packet Tracer activities.

[Ethical Hacker](#)

Issued by: [Cisco](#)

Issued to: Pendela Tej

Issued on: 6 July 2024

Description: Cisco verifies the earner of this badge successfully completed the Ethical Hacker course. The holder of this student level credential has a broad understanding of the legal and compliance requirements and is proficient in the art of scoping, executing, reporting vulnerability assessments, and recommending mitigation strategies. The holder has completed up to 34 hands-on activities using Kali Linux, WebSploit, and other tools.

[ISC2 Candidate](#)

Issued by: [ISC2](#)

Issued to: Divya Tej Pendela

Issued on: 12 January 2025

Expires on: 31 January 2026

Description: ISC2 Candidates are individuals pursuing or considering a cybersecurity certification. To become a Candidate, the individual must apply online and provide minimum identifying information, as well as affirm that they will abide by the ISC2 Code of Ethics and Privacy Policy.

[Fortinet Certified Associate Cybersecurity](#)

Issued by: [Fortinet](#)

Issued to: Divya Pendela

Issued on: 20 February 2025

Expires on: 20 February 2027

Description: The Fortinet Certified Associate in Cybersecurity certification validates that the earner can run high-level operations on a FortiGate device. The curriculum covers the fundamentals of operating the most common FortiGate features.

Fortinet FortiGate 7.4 Operator

Issued by: [Fortinet](#)

Issued to: Divya Pendela

Issued on: 20 February 2025

Description: The FortiGate 7.4 Operator exam badge recognizes expertise in the common features of implementing and operating a FortiGate device. The badge earner has demonstrated knowledge of basic configuration, operation, and day-to-day administration.

IT Customer Support Basics

Issued by: [Cisco](#)

Issued to: DIVYA TEJ PENDELA

Issued on: 27 August 2025

Description: Cisco verifies the earner of this badge successfully completed the IT Customer Support Basics course. This student-level credential demonstrates foundational knowledge in help desk operations, customer service, and remote troubleshooting. The holder is proficient in using industry-standard tools to assist users in resolving technical issues and can effectively communicate technical concepts to non-technical users.
